Status Display: Provides connection and the battery status, network signal strength, and the number of users connected to the Kajeet SmartSpot 4G LTE.

Power/Menu Button: Powers the Kajeet SmartSpot 4G LTE on and off, wakes the screen from sleep mode, and cycles through menu options.

Charging Port: The AC charger connects here.

Accessing Your Kajeet SmartSpot 4G LTE WiFi Name and Password

To access your WiFi name and password please follow the steps below.

1. Make sure the Kajeet SmartSpot 4G LTE is turned on.
2. With the display on, press the power/menu button once to enter the menu (if the screen is off, press the power/menu button to exit sleep mode).
3. Press the power/menu button again to display the WiFi name.
4. Press the power/menu button one more time to display the WiFi password.
5. Return to the home screen, press the power/menu button two more times.

Connecting to Kajeet SmartSpot Tips:

- The device is filtered and restricted to educational use only.
- Use the **power button** to scroll to the WiFi name and password.
- On your device, turn on the WiFi and select Kajeet Smart Spot WiFi Network name "**Ellipsis Jetpack ####**" from the list of available WiFi networks.
- When prompted, put your WiFi password and click OK.
- Your device is now connected to the internet.
- To view **device status** and data usage, visit: kajeet.com/status

Troubleshooting Tips:

- Make sure your device is charged (right of Kajeet Status Display Screen).
- Make sure your Kajeet Smart Spot is having solid Network Signals (left of Kajeet Status Display Screen).
